

TECHNICAL SHEET

# FARMER SCREW GALVANIZED STEEL

UNI-FSK

Correct setting of the tightening torque when anchoring the screws:

- A** - correctly set tightening torque (flat washer, compressed seal - slightly rounded around the circumference)
- B** - high tightening torque (EPDM seal excessively deformed, possibility of cracking and subsequent loss of tightness)
- C** - small tightening torque (washer with EPDM seal does not have sufficient sealing ability)

Place of use:

- A** - use in the upper part of the wave
- B** - use in the lower part of the metal sheet
- C** - use for metal sheet - metal sheet connection

Dimensions [mm]	
Nominal dimension	L
4,8x20	20
4,8x35	35
4,8x60	60

**MZ** Galvanized steel prepainted – Moss green – RAL 6005
