

TECHNICAL SHEET

# CUT-OUT PLIERS

# KNS-MASC BK1/II

**DESCRIPTION:**

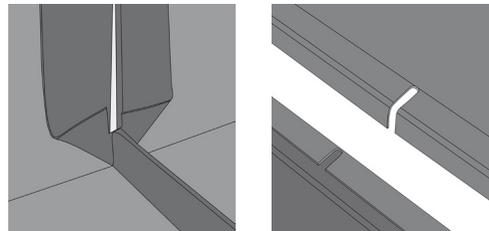

- cut-out pliers from the German company **MASC** with marking **BK1/II**
- new version of grooving scissors with a central connection
- thanks to special jaws, they cut continuous shears of any length with a rounded end and thus prevent further tearing of the sheet metal during subsequent folding process

**ADVANTAGES:**

- suitable for working in cramped positions
- easy access to corners
- large leverage
- adjustable shearing depth
- the depth can be easily adjusted by re-shearing
- shearing without surface deformation and without burrs
- handle for working in moisture

**APPLICATION:**

Steel

Technical parameters	
Size of pliers	230 x 18 x 115 mm
Shearing depth	25 mm
Shearing width	3 mm
Steel sheet up to thickness	0,70 mm
Weight	0,29 kg
