

TECHNICAL SHEET

# TPO/FPO PLASTIC-COATED SHEET

# BAU S-FPO VBL 14 SS

Bauder plastic-coated sheet with BauderTHERMOPLAN TPO/FPO surface finish is a galvanized and synthetically pre-coated steel sheet, serving as an accessory within the single-layer BauderTHERMOPLAN systems.

The BauderTHERMOPLAN TPO/FPO coated sheet is a hot-dip galvanized steel sheet, laminated on one side with a 0.8 mm thick layer of BauderTHERMOPLAN TPO/FPO, designed for making of flashings and details.

**SS** Color : Galvanized steel – Natur  
PVC foil: Mouse grey – RAL 7001

Technical parameter	
Sizer	1 x 2 m
Steel sheet thickness	0,60 mm
Plastic-coated thickness	0,80 mm
Zinc coating	275 g/m <sup>2</sup>
Top layer	plastic-coated TPO/FPO, mouse grey similar to RAL 7001
Bottom layer	painted
Weight per unit area	5,0 kg/m <sup>2</sup>
