# ASSEMBLY INSTRUCTIONS

## FRONT RIDGE CAP ENDING UNI

**1**

The top cover of the ridge cap must overhang by approximately 15 mm.

**2**

Mark the overhang on the lower part of the front and cut off the unnecessary material.

**3**

Fasten the front using rivets.

**4**

Bend the top handles and rivet them.

**5**

Fasten the ridge side using a screw with a sealing rubber.

**6**

Detail of the correct installation of the front ridge cap ending UNI.
