

# ROOF HOOK FOR TRAPEZOIDAL SHEET PROFILE

## TECHNICAL PROPERTIES

- Material: galvanized steel
- Colour versions: galvanized steel prepainted (14 colours)
- Bracket design adapted to trapezoidal sheet metal roofing
- Intended for fastening the roof gutter

We present a new **roof hook for trapezoidal sheet profiles**, specially designed for safe and stable fastening of the roof gutter directly to the trapezoidal roof sheet profile.

The hook allows installation **without the need to dismantle a larger part of the roofing**, which is especially appreciated during renovations with sheet metal roofing.
